The achievement of that target would require Member States and the private sector to complement the InvestEU Fund with their own and reinforced investment actions in research, development and innovation, to avoid underinvestment in research and innovation, which is damaging to the industrial and economic competitiveness of the Union and the quality of life of its citizens. The InvestEU Fund should provide appropriate financial products to cover different stages of the innovation cycle and a wide range of stakeholders, in particular to allow the upscaling of and deployment of solutions at a commercial scale in the Union in order to make such solutions competitive on world markets and to promote Union excellence in sustainable technologies at a global level,

38.	Recital 29	(29) The strategic European investment window should also target suppliers established and operating in the Union whose activities are of strategic importance to the Union and that would need long term investment or are covered by the Foreign Direct Investment Screening mechanism. In addition, important projects of common European interest should in particular be able to benefit from the strategic European investment window.	(29) The strategic European investment window should also target suppliers established and operating in the Union whose activities are of strategic importance to the Union and that would need long term investment or are covered by the Foreign Direct Investment Screening mechanism. In addition, important projects of common European interest should in particular be able to benefit from the strategic European investment window.	(29) The strategic European investment window should also target suppliers established and operating in the Union whose activities are of strategic importance to the Union and that would need long term investment or are covered by the Foreign Direct Investment Screening mechanism. In addition, important projects of common European interest should in particular be able to benefit from the strategic European investment window. <i>The window should</i> <i>also support strategic</i> <i>collaboration between</i> <i>industry partners and</i> <i>research players, thereby</i> <i>reinforcing synergies</i> <i>between InvestEU and</i> <i>Horizon Europe.</i>	
39.	Recital 29a (new)			(29a) The purpose of the solvency support window is to help companies to overcome this difficult	

Nr	Ref.	СОМ	Council	EP	Compromise
				period so that they are in a	
				position to carry the	
				recovery, to safeguard	
				employment levels, and to	
				counter-balance the	
				expected distortions in the	
				single market, given that not	
				all companies have the same level of access to market	
				financing and certain	
				Member States may not have	
				sufficient budgetary means	
				available to provide adequate	
				support to companies in	
				need. The possibility of	
				national solvency support	
				measures for companies may	
				therefore differ substantially	
				across Member States and	
				lead to an uneven playing	
				field. Furthermore, as there	
				is a considerable risk that	
				the impact of the COVID-19	
				outbreak will be long-	
				lasting, such lack of capacity	
				to help viable companies can	
				lead to systemic distortions,	
				creating new disparities or	
				cementing existing ones.	
				Given the strong	

Nr	Ref.	СОМ	Council	EP	Compromise
				interconnectedness of the Union economy, an economic downturn in one part of the Union would have negative spill-over effects on cross-border supply chains and the Union economy as a whole. Conversely, for the same reason, support in one part of the Union would also have positive spill-over effects on cross-border supply chains and the Union economy as a whole.	
40.	Recital 29b (new)			(29b) In order to avoid abuse and maximize the effect on the real economy and on employment, companies that benefit from EUR 30 million or more through the solvency support window should be subject to temporary payout limitations, such as restrictions on dividend payments, senior pay and	

Nr	Ref.	СОМ	Council	EP	Compromise
				share buy-backs during the period of the guarantee.	
41.	Recital 30	(30) The InvestEU should also provide support to financing to generate investment to the benefit of just transition regions.	(30) As set out in the European Green Deal <sup>26</sup> and the European Green Deal Investment Plan <sup>27</sup> , a Just Transition Mechanism should be established in order to address social, economic and environmental consequences of reaching EU climate neutrality by 2050 and achieving the Union's new 2030 climate target. The Mechanism should focus on the regions and sectors that are most affected by the transition given their dependence on fossil fuels, including coal, peat and oil shale or greenhouse gas-intensive industrial processes, but	(30) As proposed in the European Green Deal and the European Green Deal Investment Plan, a Just Transition Mechanism should be established in order to address the social, economic and environmental challenges of reaching the Union's 2030 climate target and its target of achieving climate neutrality by 2050. That mechanism which is composed of three pillars, namely a Just Transition Fund (pillar 1), a dedicated Just Transition Scheme under InvestEU (pillar 2) and a Public Sector Loan Facility (pillar 3), should focus on the regions that are most affected by the green
